Defect ID	Title	Endpoint	Method	Severity	Steps to Reproduce	Expected	Actual	Correct_Message	Test Case No.	Comment /Reason
a829f9	Register a new user-password char 5	/auth/register	POST	Major	1. Send POST /auth/register with valid name, unique email, valid role, and a 5-character password. 2. Observe the response.	400-BAD Request	201-created	Yes	Auth #40	Password length validation not enforced server-side.
e79dc3	Register a new user-password char 0/empty	/auth/register	POST	Minor	1. Send POST /auth/register with valid name, unique email, valid role, and an empty password field. 2. Observe status code and error message.	400-BAD Request	400-BAD Request	No	Auth #45	Wrong validation branch triggered for empty password.
b7619b	List-filter_field=createdAt&filter_value={{SOME_TIMESTAMP}}	/restaurants	GET	Medium	1. Copy the exact createdAt timestamp from an existing restaurant record. 2. Send GET /restaurants?filter_field=createdAt&filter_value=<timestamp> (tested raw and URL-encoded). 3. Observe response body.	200-OK restaurant returned	200-OK empty array	Yes,but required restaurants but got empty array	Restaurants #09	createdAt filter fails to match an exact, valid value.
a366899	List Restaurants - sort_by=Empty	/restaurants	GET	Medium	1. Send GET /restaurants?sort_by= (empty value). 2. Observe status code and sort order.	400-BAD Request	200-OK	Yes	Restaurants #14	Empty sort_by silently defaults instead of being rejected.
95079c	List Restaurants - sort_by=asc&sort_by=desc	/restaurants	GET	Low-Medium	1. Send GET /restaurants?sort_by=asc&sort_by=desc. 2. Observe status code and which value wins.	400-BAD Request	200-OK	No	Restaurants #17	No defined precedence when sort_by is duplicated.
e743d8	List Restaurants - sort_by=ASC/DESC	/restaurants	GET	Low-Medium	1. Send GET /restaurants?sort_by=ASC (uppercase). 2. Observe status code and sort order.	400-BAD Request	200-OK	No	Restaurants #18	sort_by accepts uppercase despite spec requiring lowercase only.
b55813	Get Restaurant By Id - Restaurant Not Found(Malformed/non-UUID id)	/restaurants/:id	GET	Major	1. Send GET /restaurants/12345 (non-UUID-format id). 2. Observe status code.	404-Not Found	500-Internal Server Error	No	Restaurants #23	Id path param not validated before DB query -> crash.
e9646b	Get Restaurant By Id - Restaurant Not Found(Case Sensitivity)	/restaurants/:id	GET	Medium	1. Take an existing restaurant's valid UUID and uppercase it. 2. Send GET /restaurants/<UPPERCASED_UUID>. 3. Observe status code.	404-Not Found	200-OK	No	Restaurants #25	UUID match is case-insensitive; should be case-sensitive.
26fa01	Get Restaurant By Id - Restaurant Not Found(Numeric-only id)	/restaurants/:id	GET	Major	1. Send GET /restaurants/123456789 (numeric-only, non-UUID id). 2. Observe status code.	404-Not Found	500-Internal Server Error	No	Restaurants #26	Same missing id validation as Restaurants #23, triggered by numeric id.
ae81e7	Get Restaurant By Id - Restaurant Not Found(Injection-style id)	/restaurants/:id	GET	Major	1. Send GET /restaurants/' OR '1'='1 (SQL-injection-style id). 2. Observe status code and response body.	404-Not Found	500-Internal Server Error	No	Restaurants #27	Same missing id validation, triggered by injection-style id.
eebe60	Update Restaurant - Not Found (Malformed/non uuid)	/restaurants/:id	PATCH	Major	1. Send PATCH /restaurants/12345 (non-UUID-format id) with a valid update body. 2. Observe status code.	404-Not Found	500-Internal Server Error	No	Restaurants #42	Same missing id validation, now on the PATCH endpoint.
d46f2a / 34306b	Update Restaurant - Forbidden Non-Owner1/2	/restaurants/:id	PATCH	Critical	**Repro 1:** Authenticate as restaurant_owner0_3 (token for a restaurant they do not own). Send PATCH /restaurants/:id targeting new_restaurant, owned by a different user. Observe status code and whether the update is applied. **Repro 2:** Authenticate as restaurant_owner0_2 (token for a restaurant they do not own). Send PATCH /restaurants/:id targeting restaurant_4, owned by a different user. Observe status code and whether the update is applied.	403-Forbidden	200-OK	No	Restaurants #44,#45	Ownership check missing on PATCH; any user can update others' restaurants.
